## 4flow NEVA

Rapid modeling and analysis of networks in retail and consumer goods

Having an accurate overview of your baseline network is an essential first step to optimizing your supply chain network. Achieving this transparency can be a challenge, due to poor data quality, complicated manual processes, frequent network changes and complex tools.

Data import

4flow NEVA

Transparency in existing network

Network analysis

Identification of weaknesses

The software solution **4flow NEVA (Network Exploration, Visualization and Analysis)** provides you with detailed visualizations and analyses of your baseline network in minutes. The results are user-friendly and interactive.

The software empowers you to react quickly to changes in your network and paves the way for the discovery of new optimization opportunities.

Benefits of 4flow NEVA

4flow NEVA is designed by supply chain professionals with over 20 years of experience in the industry. With the latest IT and sophisticated optimization algorithms, 4flow increases the efficiency, robustness and transparency of our customers' supply chains. We ensure customer satisfaction by achieving real and effective results.

Easy to use, intuitive web-based application

In-app support, user guides, online help & tutorials

Easy handling of **supply chain & inventory mass data**

Analyze complex networks with **thousands of lanes in minutes**

Ready to **use in less than a day**

Results enable **fast decision making**

Use cases in retail and consumer goods

Visualize your network to get the whole picture
Quickly create overviews of the as-is network on interactive world maps, graphs and diagrams

Track your network's changing footprint
Consider changes in customer and supplier locations and shipment volatility

Analyze service level
Review service level and lead time in your network with isochrones

Update and visualize article flows
Review changes in customer demand and shipment volatility by article

Identify cross-docks with center of gravity maps
Create a plan for cost savings with center of gravity bubble maps

Analyze customer footprint
Analyze and cluster flows to create transparency in your customer network

About 4flow
4flow is a leading provider of supply chain consulting, software and fourth-party logistics (4PL) services. With this cross-functional competency, we are able to meet and exceed the highest standards of quality and innovation.

20+
offices in Europe, North America, South America and Asia

1000+
team members globally

400+
customers globally
