

Case study – Automotive supplier and manufacturing

Global roll-out of a transportation management system integrating sea and air freight shipments

Background

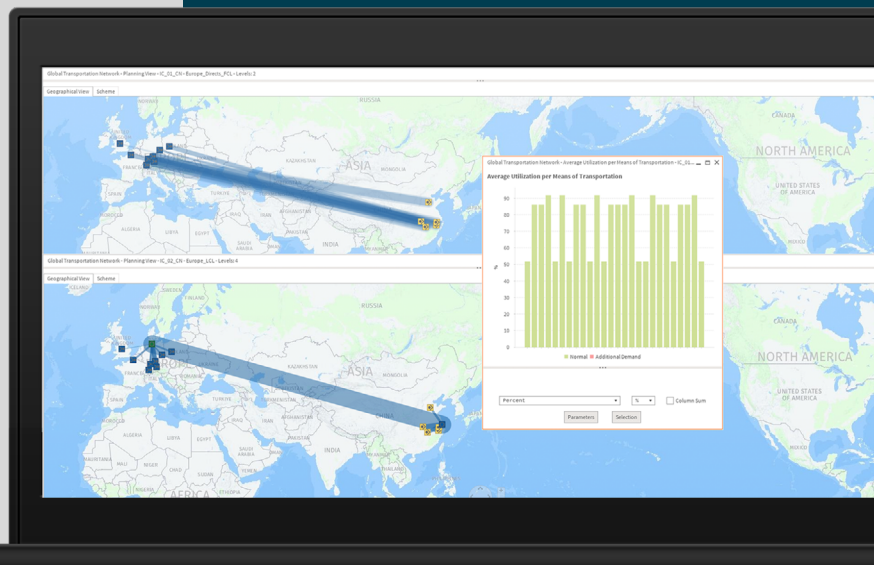

- > Successful implementation of a transportation management system in Europe based on a newly defined strategy and business model for inbound logistics
- > New department and organizational structure for transportation management setup
- > Decision to use TMS globally including air and sea freight suppliers

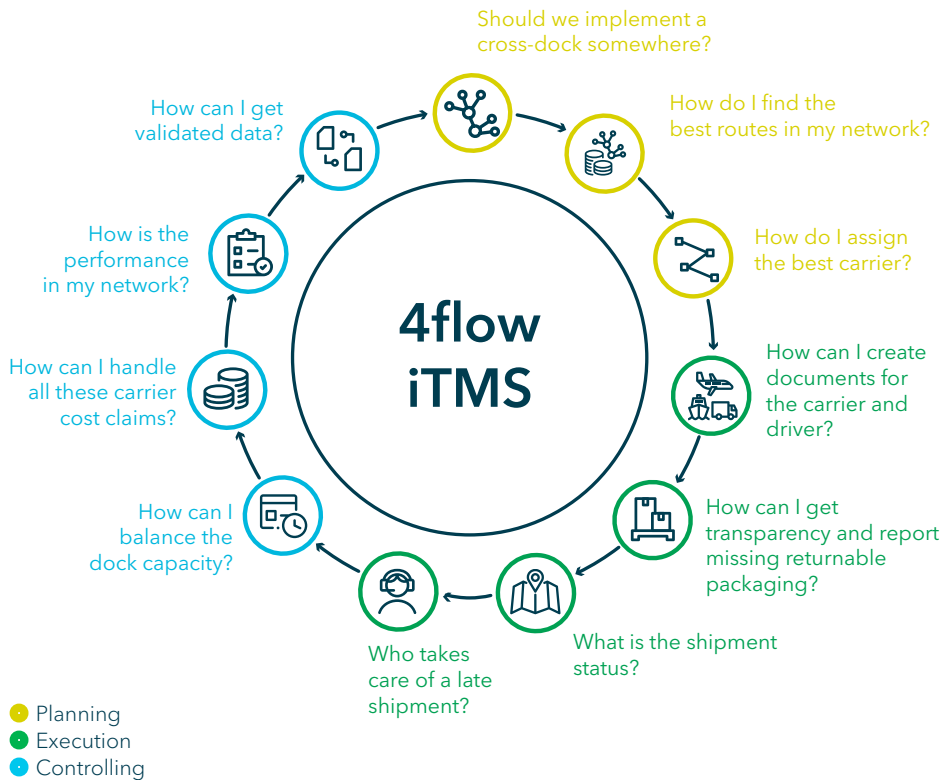

Project approach

- > Enhance the existing 4flow iTMS for global usage and to meet local requirements of the North American, Mexican and Chinese markets
- > Adapt standard transportation management processes to integrate air and sea shipments and carriers
- > Roll out processes and IT to optimize intermodal and direct domestic inbound flows of North American and Chinese plants
- > Integrate domestic and international transportation networks

Outcome and benefits

- 1 Global standard processes and IT system implemented for all users
- 2 Holistic transportation planning and optimization for all modes of transportation
- 3 End-to-end visibility and tracking of shipments using one global iTMS
- 4 Consolidation of road, sea and air networks and carriers
- 5 Collaboration enabled between transportation departments

Customize your iTMS set-up to answer your most pressing questions

With its modular architecture, the 4flow iTMS can be tailored to your individual needs.

Whether in strategic, operational or tactical planning: The 4flow iTMS modules give you the insights you need for efficient end-to-end transportation management.

About 4flow

4flow is a leading provider of supply chain consulting, software and fourth-party logistics (4PL) services. With this cross-functional competency, we are able to meet and exceed the highest standards of quality and innovation.

20+

offices in Europe, North America, South America and Asia

1000+

team members globally

400+

customers globally

Our expertise - supply chain software

Software for network optimization and fully integrated transportation and container management

Digitization and software

Supply chain strategy
